

Webex FAQ for Parents

What is Webex?

Webex is a tool we will use to bring video conferencing into the classroom. Webex Teams is a communication app students and teachers will use to do group work, message announcements, share files, and more.

Why are you using Webex?

We're excited that Webex will offer our students opportunities that would not otherwise be possible like virtual field trips, guest speakers from around the world, remote learning and more.

What are the benefits for students?

Webex creates immersive learning experiences, allowing your child to see the wonders of the world without leaving their classroom or home.

Are all sessions supervised by the teacher?

Yes.

Who will see my child?

People within our school, and invited guests.

Will sessions be recorded?

Yes, sessions may be recorded for students who missed class.

If recorded, who will have access?

Only people directly involved in your child's education.

What costs are involved for the parents?

None.

Will all students have the opportunity to use this new technology?

Yes, we plan to involve all students.

Can we use this at home?

Yes! You can join parent-teacher conferences remotely. Students can attend class from home when needed and pre-discussed with your teacher.

Does my child need extra equipment to use this?

If joining class or messaging from home, they can use any computer or mobile device.

Can a teacher see all the conversations?

Yes, all conversations will be accessible by the teacher and administration if needed.

Will there be a teacher in every chat group?

Yes, we plan to have a teacher present in every chat group.

Can my child opt out?

If you have concerns with your child using this tech, please opt out of the media release form or speak to your teacher directly.

Is it secure?

Yes, the Webex platform offers end to end encryption and meets top security standards.
